

U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

67071-123

Date of Issuance:

4/12/21

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

ACTICIDE C&D 09 WIPES

Name and Address of Registrant (include ZIP Code):

Keiona Pasco  
Sr. Regulatory Specialist  
THOR Specialties, Inc.  
50 Waterview Drive  
Shelton, CT 06484

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.
2. You are required to comply with the data requirements described in the DCIs identified below:
  - a. Bardac 2250 (Didecyl dimethyl ammonium chloride) GDCI-069149-30869

Signature of Approving Official:

*Jacqueline Hardy*  
Jacqueline Hardy, Branch Chief  
Regulatory Management Branch I  
Antimicrobials Division (7510P)

Date:

4/12/21

- b. Alkyl\* dimethyl benzyl ammonium chloride \*(67% C12, 25% C14, 7% C16, 1% C18) GDCI-069175-30909

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, "EPA Reg. No. 67071-123."
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), [https://www.epa.gov/sites/production/files/2016-09/documents/emerging\\_viral\\_pathogen\\_program\\_guidance\\_final\\_8\\_19\\_16\\_001\\_0.pdf](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
  - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
    - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
      - A. CDC Current Outbreak List for "U.S. Based Outbreaks" ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)),

- B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)) (also released through the CDC’s Health Alert Network (HAN) notification process)
  - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page ([www.cdc.gov/hai/outbreaks](http://www.cdc.gov/hai/outbreaks))
- ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page ([www.oie.int/wahis\\_2/public/wahid.php/Diseaseinformation/WI](http://www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI)).
- A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is large non-enveloped, enveloped virus).
  - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Human Rotavirus and Coxsackievirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 4 of 4  
EPA Reg. No. 67071-123  
Action Case Number: 00218431

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 03/03/2021
- Alternate CSF 1 dated 03/03/2021

If you have any questions, please contact Terria Northern via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

<sup>^</sup> When used according to disinfection directions

<sup>\*</sup> When used according to sanitization directions

**[TO] CLEAN [CLEANING] AND [DISINFECT][DISINFECTION][SANITIZATION][SANITIZING]  
[VIRUCIDAL] [MOLD AND MILDEW CONTROL] DIRECTIONS:**

**TO CLEAN AND/OR DEODORIZE:** Wipe [hard, nonporous surface(s) with [wipe] [towelette] [cloth] [sheet]. Let air dry. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO CLEAN and DISINFECT<sup>^</sup>** hard, non-porous, non-food contact surfaces: If surfaces are visibly dirty, clean first with a [wipe] [towelette] [cloth] [sheet] before disinfecting. Use enough [extra] wipes to visibly wet surface(s) for 3 minutes to [disinfect][kill 99.9% of germs<sup>†</sup>]. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO CLEAN and SANITIZE<sup>\*</sup>** hard, non-porous, non-food contact surfaces: If surfaces are visibly dirty, clean first with a [wipe] [towelette] [cloth] [sheet] before sanitizing. Use enough [extra] wipes to visibly wet surface(s) for 10 seconds to kill [99.9%][99.99%] of bacteria. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO SANITIZE AND/OR DEODORIZE hard, non-porous, non-food contact surfaces:** wipe surface, using enough [wipes] [towelettes] [cloths] to allow cleaned treated surface to remain wet for 10 seconds. Let surface dry. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**FOR MOLD and MILDEW: ACTICIDE<sup>®</sup> C&D 09 Wipes** *[insert product or brand name]* will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days or more often if new growth appears.

**DIRECTIONS FOR FLOOR WIPE USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

**TO CLEAN AND DEODORIZE floors:** Wipe [hard, nonporous surface(s) with [wipe] [towelette] [cloth] [sheet]. Let air dry. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO CLEAN AND DISINFECT<sup>^</sup> floors:** Pre-clean floor in normal manner. [Attach a pre-moistened wipe to the mop head using the fasteners provided. Thoroughly wet floor with wipes. [Change wipe when soiled.] or [Replace with a fresh wipe once visibly soiled or no longer thoroughly wetting the surface.] Allow surface to remain visibly wet for 3 minutes. Let air dry. On average, one wipe will clean [x] square feet of floor. For a larger area you may need to use more than one wipe. Discard used wipe in trash. Do not flush. Contact manufacturer of wood floors prior to use.

## \*\*\* For use on non-critical environmental surfaces in medical or healthcare facilities:

**TO CLEAN and/or Deodorize** non-critical environmental surfaces: Wipe [hard, nonporous surface(s) with [wipe] [towelette] [cloth] [sheet]. Let air dry. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO CLEAN and DISINFECT<sup>A</sup>** non-critical environmental, hard, non-porous, non-food contact surfaces: If surfaces are visibly dirty, clean first with a [wipe] [towelette] [cloth] [sheet] before disinfecting. Use enough [extra] wipes to visibly wet surface(s) for 3 minutes to [disinfect][kill 99.9% [99.99%] of germs<sup>†</sup>]. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

**TO CLEAN and SANITIZE<sup>\*</sup>** non-critical, environmental, non-porous, non-food contact surfaces: If surfaces are visibly dirty, clean first with a [wipe] [towelette] [cloth] [sheet] before sanitizing. Use enough [extra] wipes to thoroughly wet surface(s) for 10 seconds to kill [99.9%][99.99%] of bacteria. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

*{Examples of non-critical environmental surfaces include office desks and chairs, cafeteria tables, lamps, TV remotes, etc.}*

*{Note for reviewer: For environmental use sites that include medical facilities, one of the following two statements must be used:}*

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

*{or}*

This product is not for use on medical device(s) [surfaces].

## EMERGING VIRAL PATHOGENS

*{Note to reviewer: The following statements for claims against enveloped and small or large non-enveloped viruses shall not appear on the final product labels and is for guidance only.}*

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA- Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

For an emerging viral pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped virus	Human Rotavirus (ATCC VR-2018)
Large, non-enveloped virus	Coxsackievirus (ATCC VR-155)

*[Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.*

*[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.*

**STORAGE and DISPOSAL**

**Non-refillable Container** Store in original container in areas inaccessible to children. Keep securely closed. Do not reuse or refill this container. Discard empty container in trash or recycle (if available).

**Refillable Container** Store in original container in areas inaccessible to children. Keep securely closed. Refillable container. [Reuse] [Refill] empty container only with **ACTICIDE® C&D 09 Wipes** [insert product or brand name] [refills]. Do not reuse this container except as described. If not refilling, discard empty container in trash or recycle (if available).

**PACKAGE DIRECTIONS**

**To Open Package:** Open Lid. To start wipes, pull up on wipe and move wipe into the small dispensing opening [orifice] [aperture] [hole] [wave] and [pull sheet up to remove wipe] remove wipe. [The next wipe [sheet] [wet cloth] will pop up automatically]. [Always] close [snap] lid securely between uses [to retain moisture].

or

**To Open Package:** Open peel/reseal closure and [pull sheet up to remove wipe] remove wipe. [Always] close peel/reseal closure securely between uses [to retain moisture].

or

**To Open Package:** [Flip open] [Push the area marked] ["Press"] ["Push"] ["Press Here"] ["Push Here"] with your thumb and push up on the lid to open. [Thread the wipe through the dispensing lid and] Pull up wipe to remove from package. [The next wipe will pop up automatically.] Close lid securely between uses to retain moisture.

or

**To Open Package:** Open dispenser [and] [on] top of bag. Pull out the first wipe approximately 6 to 8 inches from the center of the roll. Place the entire bag inside of dispenser. Thread the wipe through the opening on the dispenser lid. Close the lid to retain moisture.

**Micro-Efficacy & Germ† Kill**

{Note to reviewer: Organism name and ATCC numbers are listed on the data matrix.}

**ACTICIDE® C&D 09 Wipes [insert product or brand name]** are a one-step disinfectant for **hard, non-porous, non-food contact surfaces** and Bactericidal [according to the modified Germicidal Spray test] in the presence of 5% organic serum against: {Choose one or more of the following organisms from the table for inclusion on the label.}

{or}
